Introducing Check Point Abra

Stallion

Check Point Abra

Put your office in your pocket

Instantly turn any PC into your own corporate desktop

Virtual workspace that keeps mobile data secure

Ideal for mobile workers, contractors and disaster recovery

Why Abra?

Who Needs Abra?

Every user

Mobile. Remote. Home.

Contractors

Unmanaged PCs

Disaster recovery

Sustain productivity

Why?

Unauthorized applications

Unsecured connections

Data loss

Compliance for unmanaged PCs

3rd-Party Workforce Challenges

Stallion

Partners, Contractors and Shared Environments

Examples

► Prevent your contractor from exposing and leaking your sensitive information to a competitor

► As a call-center operator, provide a secure shared environment for multiple clients by providing each shift with its own secure virtual workspace

"Over 44% of all cases in this year's data-breach study involved third-party mistakes."

—Ponemon Institute 2009

Disaster-Recovery Challenges

STALLION

The Case of H1N1 Flu

"**The H1N1 pandemic could cause absenteeism rates of 40 percent or higher for enterprises.**"

—Gartner 2009

Examples

► Maintain productivity even when you require large numbers of your workers to stay home during a swine flu outbreak

► Sustain business continuity when a snow-day forces the closure of your office

Plug-and-Play Solution to Fit Any PC

Work Off-Line

Access working files and data from the virtual workspace

Work On-Line

Seamless and secure connectivity to the corporate network

Standard Windows Environment

Secure Virtual Workspace

Keeping Mobile Data Secure

Hardware and Software Encryption	Segregate Workspace from Host PC	Block and Control Applications
►Always-on AES 256-bit encryption ►Tamper-proof device	►Isolates all user files ►Prevents data leaking to host PC	►Control outgoing traffic to stop data loss ►Block unauthorized applications
